Unit

2

HUMANS AND THE ENVIRONMENT

LESSON 7

COMMUNICATION AND CULTURE

LESSON 7

COMMUNICATION AND CULTURE

WARM-UP

Clip watching

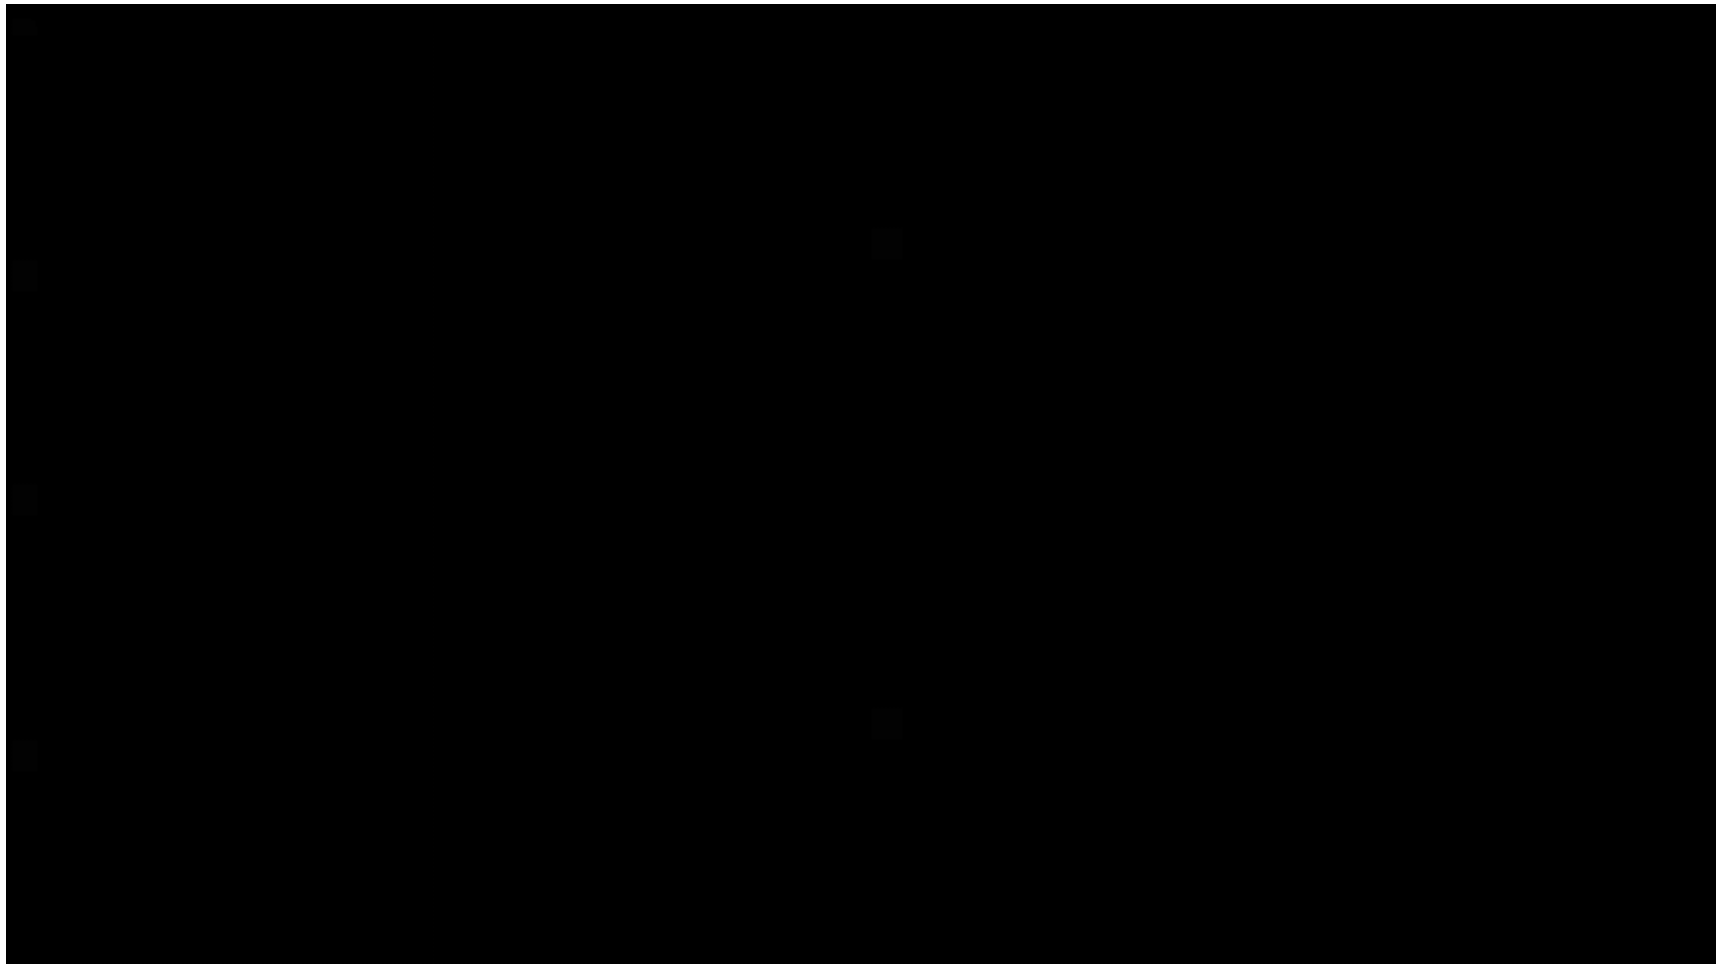
WARM-UP

Clip watching

Watch the clip and answer the questions:

1. What is carbon footprint?
2. What activities causes large carbon footprint?

WARM-UP



Clip watching

Watch the clip and answer the questions:

1. What is carbon footprint?

Carbon footprint is the amount of carbon dioxide you produce due to your activities.

2. What activities causes large carbon footprint?

Using too much electricity and gas such as using the air conditional nonstop; taking a lot of flights; driving too much, eating a lot of red meat

EVERYDAY ENGLISH

1 Listen and complete the conversation with the expressions in the box.

A. You should	B. What should I do
C. I advise you	D. Should I

Lan: I was asked to give a presentation on climate change next week.
(1) What should I do, Mai?
Mai: (2) You should search for information about the topic on the Internet.
Lan: (3) Should I also read books in the library?
Mai: That's a good idea. (4) I advise you to collect information from different sources. Then you can decide what to include in the presentation.

EVERYDAY ENGLISH

2 **Work in pairs. Make a similar conversation asking for and giving advice about green living. Use the expressions below to help you.**

USEFUL EXPRESSIONS	
Asking for advice	**Giving advice**
What should I do?	I think you should …
What do you advise me to do?	I advise you to …
Do you have any suggestions for me?	How about …?
What would you do if you were me?	If I were you, I would …
Can you give me some advice about…?	My advice would be to …

VOCABULARY

emission (n)

/ɪˈmɪʃn/

an amount of something, especially a gas that harms the environment, that is sent out into the air

khí thải

VOCABULARY

estimate (v)

/ˈestɪmeɪt/

guess or calculate the cost, size, value, etc. of something

ước tính

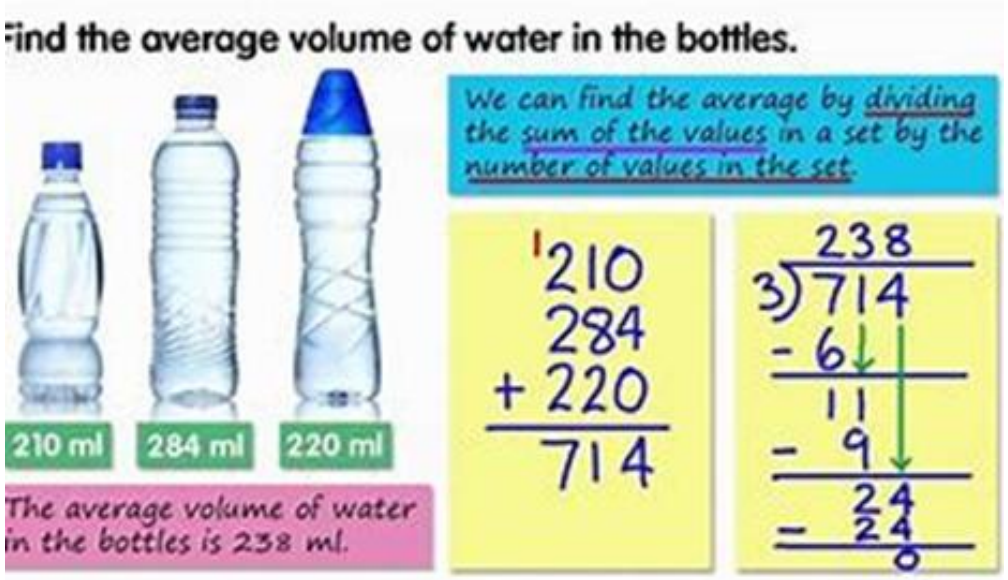
VOCABULARY

average (n)

/ˈævərɪdʒ/

An average number is the number you get by adding two or more amounts together and dividing the total by the number of amounts

trung bình



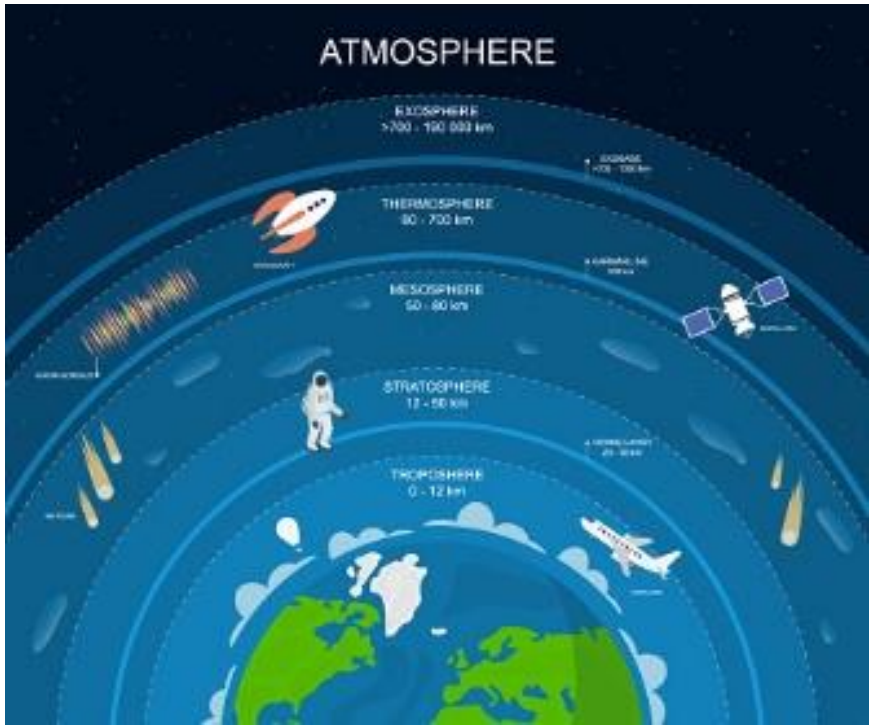
VOCABULARY

atmosphere (n)

/ˈætməsfɪə(r)/

the mixture of gases that surrounds the earth

bầu khí quyển



CLIL

1 Read the text and complete the table.

Carbon footprint		
Definition	**Effects of large carbon footprint**	**Ways to reduce it**
Carbon footprint is: - the total amount of (1) CO2 produced by human activities - emissions of other greenhouse gases	- Increasing (2) global temperatures and air pollution - Destroying the natural world	Make your daily activities eco-friendly by: - taking shorter (3) showers - using (4) public transport, walking or cycling

CLIL

2 Work in pairs. Discuss things you can do to reduce your carbon footprint.

For example:

Lan thinks that her carbon footprint is not very big, but she'll try to reduce it to further help the environment. First, she'll start cycling to school instead of asking her dad to drive her. Second, she'll stop using plastic bags for groceries. Finally, she'll start drinking filtered tap water instead of buying bottled water.

CONSOLIDATION

1 Wrap-up

- The ways to ask for and give advice
- What carbon footprint is and the ways to reduce it in our life.

CONSOLIDATION

2 Homework

Do exercises in the workbook
